

**REMARKS/ARGUMENTS**

Entry of the above-amendment is respectfully requested prior to examination of the application. The above application corresponds to an application originally filed in Japanese. The above amendment revises the application as translated into English to be in a format more closely corresponding to that customarily employed in US patent practice and to eliminate multiple dependent claims and correct some minor errors in the specification.

Further attached is substitute drawing sheet for replacement of Figure 44. The replacement shows the reference X' as described in the paragraph bridging pages 51 and 52 of the specification, which was previously not shown.

If there are any questions, please contact the undersigned attorney for applicant.

Dated this 21st day of September, 2004.

Respectfully submitted:
